As a highly skilled web developer and SEO specialist, I offer a wealth of value to organizations seeking to create impactful online experiences. With a strong background in computer science and expertise in HTML, CSS, JavaScript, React, basic Node.js, and MongoDB, I have a proven track record of designing and developing dynamic, user-friendly web applications.

My proficiency in front-end development ensures that I can craft visually appealing and responsive websites, optimizing user experiences and engagement. Moreover, my experience with back-end technologies such as Node.js and MongoDB empowers me to build robust and scalable applications, ensuring seamless functionality and efficient data management.
